README

Steps for Using the HSV Color Threshold Adjustment Tool:

Step 1:Open the `HSV.exe` file located in the position shown in the image below.

Step 2:Click to select an image, then choose the file you want to import (the image must be stored in the 'img' folder).

Step 3:Drag the sliders to apply HSV threshold segmentation to the image. Adjust to the appropriate HSV value range, referring to the color range table below for guidance.

	Black	Gtay	White	Red		Orange	Yellow	Green	Cyan	Blue	Purple
Hmin	0	0	0	0	156	11	26	35	78	100	125
Hmax	180	180	180	10	180	25	34	77	99	124	155
Smin	0	0	0	43		43	43	43	43	43	43
Smax	255	43	30	255		255	255	255	255	255	255
Vmin	0	46	221	46		46	46	46	46	46	46
Vmax	46	220	255	255		255	255	255	255	255	255
